

The background is a vibrant, abstract composition of warm colors (orange, yellow, red) with various mathematical symbols and numbers overlaid. Large, semi-transparent numbers like '7', '3', and '2' are scattered across the scene. Symbols such as a plus sign, a multiplication sign, and a checkmark are also present. The overall aesthetic is modern and professional, suggesting a focus on data and technology.

ADRIAN YEO

CHARTERED ACCOUNTANTS

Going beyond numbers

ADRIAN YEO

CHARTERED ACCOUNTANTS

We are a Chartered Accountant firm established since 1995. We provide the full range of services for companies local and international, regardless of size.

Our growth has come, mostly, through referrals - from clients who have seen us not only as an efficient partner but also a source of advice that contribute to their profitability and growth. We listen. We learn. We continuously grow our knowledge bank, so that our clients will benefit from the sum total of our experiences.

TEAMWORK

This has all come through an exceptional team of more than 70 dedicated and enthusiastic professionals. Leading this team is Kong Jing Yee, a highly qualified and driven professional who, along with Adrian, has helped steer the company to its current direction. This business calls for retaining and continuously improving our staff and we are extremely proud to be accredited an ACCA Employer-Platinum Level.

Our founder, Adrian Yeo, is a council member of The Chartered Tax Institute of Malaysia. He was also Chairman of ACCA Malaysia, Public Practice Committee.

Adrian is a numerical engineer and an accounting architect. He is an advisor to his clients, a friend to his peers and a mentor to his colleagues.

Our efforts have won us business recognition in prestigious awards: Enterprise 50 • SME Service Excellence • SME Employer - Bronze Medal • Golden Bull Award

GOING BEYOND NUMBERS

Our core task as Accountants is to ensure that all your numbers add up. It does not stop there. The constantly evolving business environment demands that we not only audit the past and present but take a peek into the future. It is about achieving a '+' in the bottom line and stepping into the 'x' future.
